### Decision Summary

- Manipulation status: Tampered.
- The tampering detector confidence is 90.36% (High).
- The image contains visual patterns consistent with possible digital manipulation.
- Risk level is high, so manual forensic verification is recommended.
- Tampering heatmap is available and highlights the region used for the model decision.
- Recommendation: Manual verification recommended before using this image as trusted evidence.

### Model Information

|           |                    |
|-----------|--------------------|
| Name      | efficientnet       |
| Version   | N/A                |
| Dataset   | CASIA v2 + IMD2020 |
| Accuracy  | N/A                |
| Precision | N/A                |
| Recall    | N/A                |
| F1 Score  | N/A                |
